The project

The project, lasting from April 2014 to March 2016, is devoted to Regulation (EU) No 650/2012 on jurisdiction, applicable law, recognition and enforcement of decisions and acceptance and enforcement of authentic instruments in matters of succession and on the creation of a European Certificate of Succession (Succession Regulation).

On the basis of a comparative approach, the activity focuses on the future impact of the Regulation on national legal systems and the related national and European case law with the aim of assessing the changes that the Regulation will introduce to legal practice, arising awareness within the legal professionals (notaries, lawyers and court judges), providing training and disseminating information in order to promote future uniformity in the application of its provisions.

Main activities

- _Opening conference in Rome
- _Three seminars and best practice exchanges in Madrid, Bucharest and Munich
- _Closing Conference in Milan
- _White paper involving research and field work, also employing quantitative research methods
- _Practice paper on identified case-studies

Questions and answers and closing of the event

The logo symbolises as, under the European Commission guidance, divergences among national legislations on the subject of international successions can be uniformed up to the level of becoming one and only living body with strong roots, the Regulation, that in its application, will manage to grant certainty in the context of a dynamic approach, differentiated per Member State.

Towards the entry into force of the succession regulation:
building future uniformity upon past divergencies
