

LOGO OF THE PROJECT

The logo of the project incorporates all the essential elements of the project EULawInEN. The first element is the balance that symbolizes the law, which is line with the yellow stars recalling the European Union, as both the funding partner and the aim of the action that is to contribute to a more coherent and harmonized interpretation and application of EU Law.

The background is blue and red, which in turn resembles the UK flag, thus recalling the English language, which constitutes the means and tool for the delivery of scientific content's training and learning tools.

The different levels of blue behind the balance indicate the progressive stages of training the trainees will undergo once they become trainers themselves, thus replicating the training model and the applied C.L.I.L. didactic methodology in three countries in Europe.

PRESENTATION

The **general objective** of the project is to contribute to the effective and coherent application of EU civil law by covering training needs' gaps.

The more **specific objective** instead is to develop cross-border training activities and tools for legal practitioners and trainers from different countries to capacitate them in EU law in English as to replicate the training methodology in other EU countries.

The planned activities last 24months. Among these are the following.

EU law blended training in English:

- preparatory activities for trainers (1 webinar of 2 hours and preparatory online materials)
- Train of Trainers (ToT) course of 20 hours in EU law (family and succession related EC Regulations - 650/2016, 1103, 1104 - and issues) in English - adopting the Content and Language Integrated Learning (C.L.I.L.) methodology in Rome to capacitate 12 trainers (6 judges and 6 notaries 2 per category per country) as multipliers in 3 EU countries (Italy, Bulgaria and Hungary)
- 3 seminars and 3 exchanges of best practice of 1,1/2 days each (national breakout groups supported by linguistic components in Bulgaria, Hungary, Italy) to apply what they learnt at ToT

EU law training tools in English:

- e-learning serious game of 2 hours for legal practitioners in the 3countries
- e-learning course of around 20 hours as self-learning tool to be published on MOOC
- Handbook with EU law content and terminology in English to publish online

Expected results are for the target group (456 EU notaries and judges) to be trained in EU law in English and better equipped and networked to collaborate with counterparts. EU law coherent and correct application is also fostered by the training materials and tools created by the project for further replication that shall benefit 10.000 EU legal practitioners.
