Dear All,

I'm very glad to see all of you here, having the privilege to attend such an interesting event in a wonderful location.

I must say that we have been welcomed at best. Thus, I would like to thank the Hungarian Notary Chamber for their kind and effortless collaboration in organizing this special event, together with the Fondazione Italiana del Notariato.

"We are called here today to discuss and find ways to foster our common legal basis that makes us all European".

Please allow me to introduce myself. I am the Scientific Coordinator of the European Project "EULawInEN", co-funded by the EU Justice Programme. I am also notary in Matera and Board Member of the Fondazione Italiana del Notariato, managing the Project together with other European partners: the Hungarian Notary Chamber of course, the Bulgarian Notary Chamber, the International Association of Judges and the Italian Notary Pension's Fund. Now, let's have a look in more detail at the Logo of the Project.

The logo in fact captures all the objectives of the Project.

The balance symbolizes the law, applied and harmonized for our partner countries under the yellow stars of the European Union.

The background is blue and red, as the UK flag, recalling the English language applied in the Project.

The different levels of the blue indicate the progressive stages of training the trainers, which will become trainers themselves.

The Project is mainly addressed to notaries and judges of the three partner countries and does intend to contribute to the effective and coherent application of EU civil law by covering training needs' gaps.

The more specific objective is to develop cross-border training activities and tools for legal practitioners and trainers from different countries to train them in EU law in English and to replicate the training methodology in other EU countries.

This Project is  
implemented by Coordinator

This seminar is the second to be delivered in the Project. The first seminar was held in Rome on the 9<sup>th</sup> and 10<sup>th</sup> of April this year, and some of you attended it. The first seminar was anticipated by a 2h webinar and a Train of Trainers course held always in Rome from the 18<sup>th</sup> to the 22<sup>nd</sup> of March this year for the 12 trainers selected through a public call. The next seminar will be held in Plovdiv, Bulgaria, on the 25<sup>th</sup> and 26<sup>th</sup> of October this year. Other 3 seminars will follow in 2020, with dates yet to be confirmed.

The Project aims also at realizing an e-learning course of around 20 hours that is partly recorded today and tomorrow here on the fourth floor. As you can see, we are not losing any productive time.

Finally, a serious e-learning game and a practical Handbook will be realized under the Project always applying the C.L.I.L. (Content and Language Integrated Learning) didactic methodology. For more information on the Project and the related activities, please visit the dedicated website at: [www.eulawinen.eu](http://www.eulawinen.eu)

I hope you will enjoy the seminar today and I hope you will take this opportunity to interact with our experts also asking questions because this is the right moment to do so. Please do not be too shy, we are all here to learn and improve both our legal and linguistic skills.

I wish you a good day and some good, productive work.

Thank you very much for your attention.
